DYSENIERY, CHOLERA, FEVER. AGUE,&C CHLORODYNE.

DR. J. COLLIS BROWNE'S CHLORODYNE is a certain cure in Cholora, Dysentery, Diarrhose

Dr. J. Collis Browne's Chlorodyne, -- Caution-None genutue without the words Dr. J. John Browne's Chlorodyne's on the Government Stamp, Overwhelming medical testimony accompanies each bottle. Sole Manufacturer J. Davopport, 33 Great Russell's Street, Bloomsbury London. The immense demand enables the proprietors to reduce the price; it is now sold in bottles, is 15;;2s 9d; 4s 5d and 11s.

Dr J. Collis Browno's Chlorodyno-Vice-Chan cellor Sir W Page Wood scated publicly in court that Dr J Collis Browne was undoubtelly the arentor of Chlor-dyne, that the whole story of the defondant Freeman was eliberately untrue, and he regretted to say it had been worn to. See the Times, July 30th, 1864. Dr J. Collis Browne's Chlorodyne-The Righ Hon Errl hussell communicated to the Colece of Physic-nas and JT Daveport, that he had received information to the effect that the only remedy of any service in Chol-ora was Ghlorodyne. See Laxettr, fee. 31, 1863.

Dr'J Collis Browne's Chlorodyne—Extrect from decical Times, Jan 12th, 1866— 1s proscribed by scores of orthodox medical practioners. Of course it would not be thus singularly popular did it not supply a want and fill a place.

Dr J Collis Browno's Chlorodyno is the best an most certain remedy in Coughs, coids, Asthma, Con sumption, Neuragia, Rheumatism, &c. The Effects of Misrule. The astute political economist who has asserted through the columns of a cotemporary journal that "bad Government does not ruin a country, should get hold of a Pall Mall Gazette of the 30th March and read what that paper says of the results that have flowed from Austrian misrule in Venetia. A more miserable and poverty stricken people than the Venetians during the long years that the heel of the oppressor was upon their necks has never been known. Poverty-gaunt, starving poverty-and half-clothed wretchedness, afflicted all the people of the province. The fisheries of the Lagunes employ 4000 men whose yearly earnings are only £12,000, or £3 to each man! The now insignificant town of Murano had once a population of 35,000 souls. The place is now plunged in such poverty that the town-hall has tumbled about the ears of the municipality, who were unable to collect sufficient taxes to effect needful repairs. The oyster fisheries support only fifteen families and furnish those persons with their sole means of subsistence. Many of the inhabitants gather certain marine vegetables used in making glass; but the supply is limited and the (xistence furnished precarious. Henry IV. of France wished every Frenchman might have his fowl in his pot. It would be no use for King Victor Emmanuel to put up such a prayer on behalf of those of his subjects who inhabit Chioggia, for amongst them pots are as rare as fowls. Such is the poverty of the place that the kettle for cooking the indispensable polenta is a luxury with which most families have to dispense; the field is thus open to speculators, who lend kettles to their poorer neighbors at a charge of from half to one kreutzer for each meal cooked. And this is but the story that is told prayer on behalf of those of his sub-And this is but the story that is told Philistines. in every quarter of the redeemed province. How the Austrians govorned and taxed Venetia is read everywhere in the gaunt, attenuated frames, and the great, staring, hungry eyes of the people. The amount of Imperial taxation regularly levied on the unhappy Venetians was £3,-400,000 per annum; and just before the Austrians ran off they attempted to give a parting financial squeezeas a token, perhaps, of their affection. ate regard for the wretched peopleso they proposed to "borrow," by a forced loan, £1,200,000. But the project suffered shipwreck because the people were so miserably reduced that the business community, in fact, all who have anything to lose, are in constant dread during their sessions, and look engerly to the which to meet the demand, and before a general distraint could be made upon their goods and chattels the territory had been returned to its rightful owner. There is no cause so po. tent for ill in a country as that of bed Government. Nothing so dispirits or blunts the energies of a people as a belief that they have a Government that does not act in sympathy with them-a Government that, while they are finding the means for are afflicted upon our heads, and we shall never wholly recover from the effects of the visitation until the Goverament Buildings are swept from attic to cellar, and every useless, expensive incumbent broomed out of

equitable terms, which shall compre hend a responsible and a cheap form of Government. THE GREAT EASTERN AND THE EXPOSITION SPECULATION—The charterers of the Great Eastern, thus far, have not very promising prospects in their speculation. The great Eastere, thus for, have not very promising prospects in their speculation. The great ship managed to get out of the harbor three days after the time fixed for sailing, after damaging the Western Union Telegraph Company's cable across the Hudson River, about one thousand dollers with her anchors. She took out but 190 passengers, whereas it is estimated that she must have 1,000 to make both ends meet. It is also estimated that the charterers sunk from \$80,000 to \$100,000 on the first trip, and fears are entertained that she will not return to make the remaining trips. Quite a number of the remaining tripe. Quite a number of passengers are boxed for the next trip, visitors to the Exposition preferring to make their trip later in the season. There seems to be a latality connected with this ship, to far as money making is concerned. She has note of proved a paying investment, except in croinstance when the Aliantic cable was successfully laid. But the Great Easten is not the only vessel meeting with poor success.

The stamper Havana, which, at great ex not the only vessel meeting with poor success. The steamer Havana, which, at great expense, had been newly and elegantly furnish-Gen. Williams and Lord Do Radeliffe, the former being then in Kars, and the latter being English Ambassador at the Court of the Sultan. In 1857 he was appointed Government of passengers and cargo. She was to have taken out an orchestra, to furnish music curing the trip. It is thought, however, these enterprises were set on loot at loo early a day, and during the month of June and July thousards of Americans will be anxicus to cross the Atlantic and visit the Great Exhibition,—New York Letter.

Solution to the Operation between Gen. Williams and Lord Do Radeliffe, the Grow that the Court of the Sultan. In 1857 he was appointed Government of passengers and cargo. An Awful State of Things in New York State.

(Correspondence San Francisco Bulletin.)

NEW YORK, April 11, 1867. HARVEST FOR THE CORRUPTIONISTS-IN-LEGISLATION - CRUSHING BURDENS

IMPOSED UPON THE PROPLE. In the good old days of 1851-'52 and '53, when the carnival of thieves was at its height, the people of San Francisco were bled heavily to support perhaps the most insatiable and audacious "ring" that evertock upon themselves the management of public affairs; but I doubt if, at your most trying period, you were ever so unblushingly fleeced, so weightly burdened as is this community at the present time. It really seems as if the Councils, and the Aldermen, and the Board of Supervisors and the Legislature as if the Councils, and the Aldernien, and the Board of Supervisors and the Legislature had determined to glean the field—"to gut the mine"—to kill the goose that lays the golden egg, and leave but the husks and chaff for those who come after them. The officials have made out their estimates, and demand the modest sum of \$18,000,000 for the government of this small island for the ensuing fiscal year, while the Torture Chamber at Albany is multing on the serves of ber at Albany is putting on the screws of public taxation at a fearful, even a crushing rate, and, at the same time, beeding and pampering a swarm of private lecches, in the shape of monopolies and franchises, that threaten to exhaust the little strength left to the patient by the tax-gatherer. The Con-troller of the State has recently addressed a communication to the Legislature in which dented appropriations that have already been made or projected, and warns them, in grave and carnest language, that the people can't stand it. stand it.

A HUNDRED MILLIONS OF TAXATION IN ONE YEAR!

He shows that the people of the State of New York will have to pay in 1867, \$35,-000 000 for local taxes—nearly \$25,000,000 by New York City alone—and over \$50, 000,600 for the taxes imposed by the Federal Government, making a total sum of over

THE WATCH DOGS TURNED WOLVES.

Herbert Speccer, one of the profoundest thinkers of the age, in a luminous treaty upon Representative Government, admits its superiority to all others yet devised, but with rare analytical skill points out its weaknesses and its defects. And herein, he claims, lies its chief danger. Whenever the profit accru-ing to the Representative individually, from the passage of a mischiovous measure largely exceeds his loss as a unit in the community, from the operation of the injurious law, his interest becomes antagonistic to that of his constituents, and sooner or later will sway his vote. This danger now threatens us, and is becoming more alarming every year. Albany realizes it; the loose morality of large interested classes tolerate it; public opinion feebly condemns it, but exhibits no spirit, and employs no effective measures to avert it, Instead of looking to their Representatives as guardians and champions of their interests close, and count the days, until adjournment, as days of endurance and heave a sigh of relief when the legislative mill has ceased to grind. It is common to hear citizens ex-claim: 'Thank God, Congress has ad-journed?' or, 'Heaven be praised, the Legislature has gone home, we can breathe freely once more, for six months at least!' and this from no censorious spirit, but from a genuine

its support, furnishes not the least evidence of cordiality and good flees of cordiality and good feeling towards the poor tax-payers, who are perpetually having Oliver Twist's cry "for more" rung in their ears. Bad Government has stay at home to select 200 convicts for pardon in order to make room for the new batches there aim't much more waste in a hor: there aim't much more waste in a hor: there aim't much more waste in rouring into the prisons from all quarters. Think of it—s community obliged to let loose a swarm of desperadoes before the expiration of a merited sentence, because their "room is wanted!"

> Omar Pasha, the New Commander of the Turkish Forces.

Omar Pasha is sixty-five years old, was born in Hungary, whence be fled to Turkey in 1848, there revoused the Roman Cathlehic religion and embraced Mahomedanism. in 1835, there reasoneed the Roman Catholic religion and embraced Mahonmedanism. When in Hungary he took part in the Hungarian revoil, but upon repairing to the Bosphorus he was appointed a colonel of the army of the Sultan. His pay as colonel was but \$7 per month and ordinary commutations. He was promoted by degrees, but on three different occasions was diagraced on account of becoming indebted, and not satisfactorily necounting for the funds of the division with which he was connected, that of Irak, of the Army of Messopotamia. In the first part of the Crimean war, early in 1853, he was in disgrace. Owing to the scarcity of reliable Turkish officers, Omar had little difficulty in being reinstated, his ability being neknowlodged, in spite of his many errors of conduct and general looseness of life. Before the Crimean war he was living in Constantinople upon his pay allowance, and after the destruction of the Turkish fleet in the Bay of Shoope, he was called into active orders to proceed to the feltel of Kars were fusitated by the want of proper transportation, and the want of co-operation between Gen. Williams and Lord De Radelille, the former being then in Kars, and the latter being English Ambassador at the Court of the Sultan. In 1857 he was appointed Governor of the Province of Irak, arriving on the Bagdad on the 18th of Feb., 1858, and being removed on the 25th of Nov., 1859, and was immediately attracted upon veryors.

By Glectric Telegraph Sheik was to take the four shoes off his mult, and drive them into the feet of the special TO THE DAILY BRITISH CULUNISI life, being sent in obscurity and disgrace to the village of Brussa. He was then paid but \$20 per month for his living until the breaking out of the Montenegrin war in 1861, when by the influence of the British Amwhen by the influence of the British Am-bassador, Sir Henry Barlow, he was reinsta-ted and ordered to command at the seat of war at Montenegro. Here he was defeated in the first series of engagements, but availing himself of an English officer who had taken sketches of the secret mountain passes, he penetrated to the fastnesses and defeated the enemy, who sued for peace after a contest of about three months. This success restored him to prestige and power, and the Sultan him to prestige and power, and the Sultan was pleased once more (for the fifth time) to

was pleased once more (to the lift time) to pay his many debts.

Since then he has resided in Constantinople, in the enjoyment of fortune, fame and a plurality of wives. He occapies a palace on the Scutari side of the Bosphorus, is very hospitable, receives many visitors, and has embraced his new religion with all the fana-ticism that characterises an apostate. In personal appearance Omar Pasha is about six feet high, with blue eyes, dark brown hair, thickly interwoven with gray, and is of imposing mien, and is talkative and eng-ging in marner. He talks French, Italian, ging in marner. He talks French, Italian Turkish and English, with extreme fluency and urusual correctness. In fighting, his style is quick, energetic, and to a degree resembles as a strategist Stonewall Jackson, and is regarded as invariably successful by

THE QUEEN'S BOOK.—The London correspondent of the Springfield Republican says of the Que n's book, Leaves from my Journof the Que n's book, Leaves from my Journal in the Highlands, that it consists of about forty papers descriptive of her life at Balmoral and the neighborhood. The work is illustrated by photographs and wood cats from her Majesty's sketches. It contains, among other interesting matter, three long accounts of incognito journeys made by the Prince Consort and herself to different parts of Scotland, and the adventures which they met with. In one of the papers she gives of Scotland, and the adventures which they met with. In one of the papers she gives an account of the preaching of Dr. Norman McLeod, of Glasgow, and after stating how astonished she was that any one could preach 'so eloquently and touchingly without notes,' she adds: 'And then he prayed so kindly for me and the Prince in the after prayer that I was deeply touched; but when he invoked God's blessing on the children I felt a great lump come in my throat.' She had not expected to be prayed for so kindly by n Prespeted to be prayed for so kindly by n Prespeted to be prayed for so kindly by n Prespeted to the prayed for so kindly by n prespectation, and least of all did she expect him to pray for the children. I think there is something truching in this simple note of the queen-wile and mother, which shows how the queen-wile and mother, which shows how true a woman she is. Only forty copies of the work have been printed for special triends and tavorities, but sooner or later it triends and tavorities, but sooner or later it will, of course, be reprinted, and will be a most interesting addition to contemporary literature. What would the world not give for such a work by Queen Mary or Queen Elizabeth? The copy from which I have quoted bore on the title page the fellowing inscription; 'To dear Jeaonie G——, in remembrance of many, many happy hours—gone, never to return again, from V.R.' Her Majesty has also written the preface to a life of the Prince Consort, which Gen. Gray is preparing for private distribution.

EPISCOPAL MISSIONS IN RUSSIAN AMERICA s probably not unknown to your readers. New Archangel, on the Island of Sitka, has long been the seat of a bishopric of the has long been the seat of a hishopric of the Greek Church. A Greek bishop, with several priests and deacons, reside there, and there is also a Lutheran minister there, and schools long established. The Episcopalians have made a note of this fact and perceived in it direct encouragement for the early establishment of their branch of the church Catholic in those parts. Bishop Whitehouse, of Illinois, who recently relumed from Russin in those patts. Bishop Whitehouse, of Il-linois, who recently returned from Russia, where he was most fraternally and hospitably entertained by the Patriarch and bishops of the Greek Church, reports a most favorable state of feeling on the subject of intercom-munion between the Greek, Anglican and American Churches, and that practically no real obstacle of any magnitude exists to such intercommunion. The Greek Church favors the realize of the Scriptures and is open to the reading of the Scriptures, and is open to all the influences of American civilization." So says the Independent, meaning, I suppose. Beecher's sermons, political atters and Ledger novels. It is quite in the prevailing style of the high ritualists, however for which I have not ceased to wonder that Bishop Whitehouse could have found it consistent with his views on that subject to approve its worship—the Bishop, you know, being one of the signers of the recent Declaration' of from no censorious spirit, but from a genuine feeling of relief.

THE GOVERNOR OBLIGED TO PARDON OLD OFFENDERS TO MAKE ROOM FOR NEW CONVICTS.

And here I may mention a most extraordinary etate of affairs connected with the punishment of criminals in this State. Capacious and numerous as are the prisons and the Bridewells, they have become utterly insufficient to meet the rapid increase in he number of felons sentenced to conficement, united in the Sandwich Islands,—N. Y. Cor.

in a hog; there ain't much more waste in them than there is in a oyster. Even their faits can be worked up into whissels. Hogs are good quiet boarders; they cat what iz set before them, and don't ask env foolish set before them, and don't ask ony foolish questions. There is a great many breeds amongst them. Some are a close corporation breed, and some are built more apart, like a hemlek slab. Some are full in the face, like a town clock, and some are as long and lean as a cow-catcher, with a steel-plated nose on them. They can awl rute well; a hog that kant rute well hez been made in vain. They are a short-lived animal, and generally die as soon as they get fatt. The hog can be larnt a grate many conning things, such as larnt a grate many conning things, such as hist ng the front gate off from the hinges, tipping over the swill barrels, an i finding boles in the fence to git into a cornfield; but that a air't eny length to their memry, and it iz awful hard work for them tew fin

THE PEOPLE'S FRIEND.

PERRY DAVIS'

VEGETABLE PAIN KILLER!

The Greatest Family Medicine of the age Taken internally, it cures sudden colds, coughs, etc., weak stomach, general debility, nursery sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp and pain in the stomach, bowel complaint, painter's colic Asiatic cholera, diarrhea and dysentery. Applied EXTERNALLY, cures felous, boils and old sores, severe burns and scalds, cuts, bruises and sprains, swelled joints, ringworm and letter, broken breasts, frosted feet and shilblains, toothache, pain in the face, neuralgia and rheumatism. It is a sure remember for Agur and Chills and Fryer.

A New and Grind Speck in Medicine.—
Dr. Blaco zl. is the founder of a new Medical System The quan itarians, whose vast internal doese enfeebie the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two folis extraordinary Pills, and cures the most virulent sores with a box or so his wonderful and all healing Salve. These two great specifies of the Dector are fast superseding all the stereotyped nostrum of the day. Extraordinary ourse by Maggiel's Pills and Salve have comed the eyes of the public to the inefficiency of health of the property of the public to the inefficiency of his extraordinary ourse by Maggiel's Pills and Salve have comed the eyes of the public to the inefficiency of his day. Extraordinary ourse by Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box full taken recatern absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in prefect order, tone the stomach, created an appetite, and render the spirits light and buoyant-flero its sorghing, and no reaction in the form of const, pation. If the liver is affected, its functions are restored and if the nervous system is foeble, it is invigorated. This isst quality makes the medicines very desirable for the wants of delicate formales. Ulcerous and cruptive discusses are literally extinguished by the directification of the wants of delicate formales. Mayor's Court.

WEDNESDAY, June 5, 1867. His Worship the Mayor and the Stipend. lary Magistrate sat at 12 o'clock to hear complaints preferred against the Insurance Agents for non-payment of Municipal rate of one-tenth of one per cent. on gross receipts for insurance. The following Companies were represented :

Royal-by G. C. Wigham.

Imperial-by J. R. Stewart. London and Lancashire-by T. L. Stahlschmidt. Lancashire-by F. Weissenburger.

British and Foreign-by Mr Drake fo Janion, Green & Rhodes.

Mr Stewart, for the Imperial Company presented a return of his transactions for the first three months and the other agents present did likewise.

The Stipendiary Magistrate said these three months' returns would be taken as the basis of taxation for the whole year. Mr Stewart said that that arrangemen

would be satisfactory. Mr Drake assented to the same arrange-

Mr Stahlschmidt said that the business of the London and Lancashire would cease.

Mr Wigham and Mr Weissenburger assented to the arrangement. The Magistrate said the protest (which

had been handed in against the rate) had no legal weight. Mr Stewart said that the agents were act-

ing for a Company that was a long way off If they were representing their own money, there would be no objection to the payment of the rate. Mr Drake said that in consequence of the

London and Lancashire going out of business there would naturally be an increase at the other offices, and that the agents were perfectly willing to pay the rate on the increased business il required for the remainder of the year.

The difference having been thus satisfactorily arranged, the bench decided that the rate levied for the remainder of the year on the Insurance Companies would be calculated upon the basis of transactions as handed in by the agents to-day: the costs of Court were ordered to be paid and further proceedings dropped.

A check was at once handed to the bench for the amount of the tax by Mr Stahlschmidt.

Arthur Bunster appeared to answer a summons for declining to pay the rate levied on real estate and on rental. Defendant had made no returns. He said he objected to pay the rates and wished to say that he did so because money was being paid away for purposes prejudical to the city—the natural water course of the same was to be interfered with by building a wooden culvert through his property, which he held to be illegal. He had been singled out from a lot of others who had not paid their rates.

The Magistrate said no legal objection had been advanced.

Mr Bunster contended that he had no right to pay money for an object contrary to

objecting entirely on hearsay grot was no truth in his supposition.

The Mayor remarked that Mr Bunster was

if he was wronged, had a good case for the papers attribute the accident to the absence Supreme Court.

Mr Bunster-Yes, but if I pay the money, I become a party to the wrongdoing; I want

the water course preserved. The Mayor-We have not got the water

course before us now; only a small account that you owe the city.

Mr Bunster-Well, I won't pay it. Magistrate-That's enough - prove the

amount and make an order for its collection. Mr Bunster complained that he had been singled out from plenty of others who did effect. Marsh had promised him a benefit

pay this amount and a legal gentleman had the city had not devoted a cent of the taxation towards its improvement. The Magistrate-These are good grounds

for a memorial to the Council.

Mr Bunster-Other streets are macadamized while mine is not touched, simply because some of the Councillors don't happen to own lots on my street.

The Magistrate-This is a very serious charge, and you might be committed for contempt of Court. Mr Bunster-I'm not alluding to this

Magistrate-Oh! (laughter) you want a

.Mr Bunster-I do.

Magistrate-Do you promise to pay in a Mr Bunster-No, I do not,

bourt and direct that the rate be levied by Mr Bunster-I won't pay it, my friends

The Mayor-Well, I fine you the costs of

proof of summons, nor anything else. I ask

for a non-suit. (Laughter.)

The Magistrate remarked that he did not concur in the decision of the Mayor and Bunster immediately left the Court which was then adjourned.

> From Cariboo and Big Bend. (From the Columbian.

The steamer Onward, Capt. Irving, arrived from Yale on Monday evening, bring. ing an Express for Deitz & Nelson, and a number of passengers. Amongst the passengers was the Hon. Roderick Finlayson, who has returned from a two-months' tour in the interior. Mr Finlayson left William Creek on the 8th and Kamloops on the 28th May. While at Cariboo he completed arrangements for opening a store for the Hude son Bay Co. on William Creek. The premises formerly owned by Mr G. B. Wright, at Quesnelmouth, have also been purchased for warehousing purposes. The store on the Creek will be opened in the course of the present month.

From the Big Bend mines there was little news. The steamer " Forty-Nice" arrived at the landing, on her second trir, on the 13th. The first trip she brought up 10 passengers and 3 tons of freight; the second, 15 passengers and 6 tons freight. No difficulty was experienced on either occasion. It was anticipated that there would shortly be a considerable immigration from the Blackfoot country. Big Jack, the well-known boatman, brought the report to Savana's Ferry, just as Mr Finlayson was leaving, that four men had taken \$1900 rout of a claim on French Creek, in one week, What claim and what persons "deponent saith not." Mr Finlayson confirms the statement we published some time ago respecting the unusual severity of the winter and consequent mortality amongst stock in the Kamloops coun-The H. B. Co.'s steamer Marton has been caulked, painted and is all ready for business so soon as sufficient offers to justify her in running. She will probably make a lew trips at any rate towards the end of the present month, for the purpose of carrying the Company's freight forward to Kamloops. THE WATCH STEALING CASE-Maggie, the

young half-breed girl, accused of stealing a silver watch from Robert Rowe, appeared again in the police court yesterday to answer | for mining operations. The farmers had put the charge. Mr Bishop appeared for the in for large crops along the road, and are in defence. The defendant said he did not wish great spirits as to the future. They speak to prosecute, as the watch was left there to pay what he owed the girl. The magistrate tion .- Examiner. said he was sorry to see Mr Bishop present for the delence. These open robberies by half-breeds were of frequent occurrence; men were robbed by them frequently, and rather than endure the disgrace of presecuting they put up with the loss. He would not permit a continuance of such a state of things. Mr Bishop replied that he had taken this case as he would any other; he was sworn to do his duty by his client, and would endeavor to do so. He know nothing of the merits of the case. The magistrate was surprised that a man who know the ways of the town as well as Mr Bishop did was not aware of the frequent occurrence of these cases. Sergeant Bowden was called and proved that the woman at first denied taking the watch, that she subsequently acknowledged having it, but declined to give it up unless the man paid her \$15. Mr Bishop submitted that no caution having been given the woman the evidence of the Sergeaut was inadmissible. Mr Pemberton said he was afraid the charge of robbery would not hold, but that the woman should not escape on that account. The case was remanded for one day, the magistrate assuring Mr Bishop that no imputation rested against him in consequence of his having taken the case for the

defence. THE MALACCA ON THE SANDHEADS-On leaving Fraser River early on Tuesday, H.M.S. Malacca, with Governor Seymour aboard, took ground on the sandheads and remained hard and fast until 31/2 o'clock the same afternoon, when the steamer Enterprise, on her way to New Westminster, discovered the Malacca's condition and went to her assistance. The Enterprise took the Malacca's anchors and dropped them in mid-channel. At high tide-which occurred about eight o'clock-the "big ship" was kedged into deep water and anchored for the night, and in the morning came on to Esquimalt. We are glad to learn that the Malacca has sustained no injury; but it is painful to think what might have been the consequence had she remained on the sands yesterday when The Magistrate suggested that Mr Bunster, a high wind prevailed. The Westminster of the black buoy, and call for frequent supervision of the buoys; but if the channel through the sandheads were fenced with buoys they would furnish no safeguard against accidents of the kind. The sands are continually changing, and buoys that would mark the channel to-day would serve but to mislead the mariner ten days subsequently. Fraser River is no place for large vessels.

"OUR NEW SENATORS."-The acquisition of Russian America has given occasion for a great deal of newspaper remark, much of it not pay. He was credibly informed to that running in a facetious vein, and the pictorials seized upon it as excellent material for at the theatre in case he was compelled to comic illustrations. Among the best things of this kind we have seen, is a caricature in promised to defend him. He had expended Frank Leslie's Illustrated, of April 27th, over \$1000 in improving Johnson street, and entitled, "Our New Senators," The picture represents Johnson and Seward in the act of doing the hospitable to a fur-olad Kamschatkan who is bedecked with the savage toggery and trinkets ascribed by popular belief to the people of that northern country, and who holds by a string a seal to which the artist has given a touch of the human look. The Kamschatkan representatives have evidently just arrived at the capital and the main figure, is yet in his traveling dress and snow shoes. Mr Seward bows profoundly and says : "My dear Mr Kamskatca, you really must dine Council-I mean the previous one (laugh- with me. I have some of the very finest tallow candles and the loveliest train oil you ever tasted, and my whale's blubber is exquisite-and pray bring your friend Mr Seal along with you. The President will be one

FIRE AT SEYMOUR .- The mail from Saymour on Monday brought information that about two weeks ago a large fire had been raging around Seymour, and reached the store in which Mesers Smith & Ladner had by do so if they wish, There's been no their merchandizs, consuming the store and goods to the value of \$10,000 .- Examiner,

of the party."-Oregonian.

KOOTENAI-We (Examiner) have received letter, dated April 28th, from a party at Fort Shepherd, who errived there from Kootenai on the 17th. The writer eays: "Arrived in camp April 17. The miners were beginning to work. Things look promising for the summer. There has been very little snow and a mild winter in general. Stock kept fat all the winter. The trains from Walla Walla were not expected in before the 15th May. There has been considerable excitement here about '49 Creek. Two or three hundred dollars were taken out this spring, but at present the men are a little discouraged. A party of Cariboo miners are sinking a shaft above the canyon. The steamer Forty-Nine left Fort Shepherd to- assortment of mens' and boys' straw hats. * day for Big Bend. A very small cargo on board and a few passengers."

THE NEW LORD ADVOCATE .- On Thursday Mr. Edward Strathern Gordon, formerly Solicitor-General of Scotland, presented to the Judges of the Court of Session in full bench Her Majesty's commission, passed ander the Great Seal of Scotland, appointing him to the office of Lord Advocate. His Lordship took the oath of allegiance, and duly subscribed the oath de fideli. The silk robe was then put on, and the Lord Advocate received the cordial congratulations of the Bar. There was a large attendance to witness the installation .- London Times, April

WE understand that Mr Legh Harnett will in a few days proceed to the Cariboo and Shuswap countries for the purpose of making a geological survey of those mining districts with a view to embodying his opinion as to their capabilities in a report. Papers and reports from Mr Harnett's pen, based upon examinations of various mining localities in California, have been placed in our hands, from a perusal of which we have every confidence in the ability of the gentleman to do justice to the subject.

LATER FROM CARIBOO .- From parties who rrived here on Monday we learn that the United Company on Conklin's Gulch, from their two last washings, got 402 oz. and 485 oz. The Heron Co. are reported to have found their old lead, and are taking out good pay. The weather was most favorable of the protection tariff with great satisfac-

BIG BEND-Letters received in town from Big Bend (says the Examiner) report matters very lively in that detrict. The steamer Forty-Nine had made two trips, loaded with passengers and freight. The Black Hawk claim is paying good, and the miners have every confidence in their claims, many of which are being opened, and in the course of a few weeks will show what they are worth. Provisions are high, owing to the made, by competent Surveyors, bad state of the roads on this side. Packing two large Maps, each 6 feet is expensive and difficult,

AN ARGENTIFEROUS OFFENDER -" Bob. who rejoices in the precious surname of Silver, was brought before Mr Pemberton yesterday upon a charge of having assaulted a redskinned gentleman of the Siwash persuasion. "Bob" pleaded that the "Injun" had demanded an exorbitant sum of money for carrying a pack of skins; that on belog refused he "went behind him"-in plain English, tried to draw a knife-when the defendant gave him a basting.

MRS PALMER'S Soires—An agreeable evening is promised at Sing Verein Hall by Mrs Palmer, on the 11th inst., when another of that lady's agreeable soirces dansante will be given. These reunions have always been classed among the most agreeable given here A limited number of tickets will be offered and it is hoped that the favored devotees of Terpsichore will not fail to attend.

A MISTAKE-Mr Bunster, in the course of his remarks yesterday at the Mayor's Court, said that he had been singled out from a number of delinquent rate-payers for prosecution. The Town Clerk informs us that this is an error on the part of Mr Bunster. Many other summon es were issued, but the parties preferred settling to coming before

the Mayor. BANKRUPTCY-There were no cases to come before the Bankruptev Court vesterday and no sitting took place. From June 1st, 1866, to June let, 1867, there were 48 cases of bankruptcies and assignments. The present gratifying appearance of the docket indicate that the number of cases will be very small for the future.

A GREAT deal of inquiry was made yester. day after the name of the party stabbed on Douglas street on Monday night, but it was withheld for obvious reasons. The injured man, though somewhat weakened by the loss of blood that flowed from the wound, is recovering rapidly.

THE News accuses the Colonist of stealing one of his celebrated "leaders," but fails to produce the article to establish the charge Our contemporary's leaders are not unlike the purse that Shakspeare tells about :- he who steals them "steals trash."

A Short time ago one of Wells, Fargo & Co.'s agents in the East received an order for a case of Bologna sausages. Not being able to find any of the manufactured article, the agent sent some raw material in the form of yellow dog.

THE Malacca reached Esquimalt at 2 o'clock yesterday afternoon. Governor Seymour came down in her, and will go north to day in the Sparrowhawk. His Excellency was received with a governor's salute by the Shearwater. THE LATE RAINS have done a great deal

of good throughout the Island. The fall was 100 yds Superior Brussels Carpet much heavier in the interior than in the Mahogany Sofa, Clairs, Card and town and the suffering crops have everywhere revived. The prospects for a heavy yield are now very promising. RETURN OF THE ENTERPRISE-The steamer

Enterprise returned at a quarter to five last Counters, Show Cases, Shelving evening: Among the passengers were Mr Gassittings, Blinds Finlayson, H.B.C., Mrs J. A. Webster, H. P. Walker, Legh Harnett, and G. Dietz.

REGATTA HATS .- Mr Adams, of Govern ment street, has received, per Princess Royal, a splended assortment of men's and boys' boating and regatta hats.

ONE object of the Governor's visit to Metlahcatlah is to inspect the wonderful commu nity which the exertions of Mr Duncan ha founded there out of the rough native materials he has had to work upon.

FAILED TO CONNECT-The copper hunting expedition from New Westminster failed to reach the lead owing to a high wind which threatened to swamp the steam coffin Levi-

OOLACHAN OIL is said to be a capital cure for asthma. Some of the oil will be sent to England for a test of its medicinal qualities

Boys' STRAW HATS .- Mr Adams, of Government street, has received a splendid

THE sloop Cesare witch sailed for Sitka on Tuesday evening.

Wно appreciates the fact that there is any great importance attached to such a commodity as a PILL? It is generally supposed that anybody can make them, as all can take them. But visit the laboratory of Dr J. C. Ayer and you will be disabased of the idea, that it is a trifle to make any medicine and adapt it to the wants of millions o men-to so adjust it to their needs, and so cure their complaints, as to make them its Dean of Faculty and other members of the constant customers in all the zones. Physicians find it requires some skill to adap their doses to a single patient; ask them i it is not an intricate problem to adjust a purgative pill to the necessities of untold numbers, so that it shall becefit them nearly all. Dr Ayer's laboratory supplies 60,000 doses of his Pills per diem, or 19,000,000 a year. Think of that, Esculapius! Well may it whiten the head of any man to administer to that amount of suffering, and especially when, as is here evident, everything is done with the extremest nicety and care-Randolph, (Vt.) Statesman.

> A SURE Temedy for CHILLS AND FEVERS. AYER'S AGUE CURE never fails.

VICTORIA RIFLE CORPS.—The Corps will parade in full uniform at 7:30 p. m., on Monday, 3rd inst., at James Bay; attendance compulsory. Class firing, Tuesday and Frid day, at 4 p. m. By order, J. Gordon Vin-TER, Lieut. and Adjt.

(Successors to Kellogg, Hewston & Co.,)

CAPITAL;STOCK, - · · · \$1,000,000.

JOHN PARROTT, CHAS. E. McLANE, WM. C. RALSTON, A. HAYWARD, LOUIS A. GARNEIT.

LOUIS A GARNETT President and Manager JOHN HEWSTON, JR.......Chemist and Superintenden

THIS COMPANY HAVING GREATLY EN

A larged their kenning works, and introduced man-ether important improvements, are pleased to announce that they feel warranted in again reducing materiall, their terms of doing business.

The Tariff of Charges

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than any other part of the world, and secures to the mining interest of this coast an important incease in both the minting and commercial value of bullion.

Their charges hereafter will be as follows:

For Assaying Deposits for Unparted Gold

One-eighth of one per cent (heretofore a quarter) for all amounts over \$1,000, and two dollars for any smaller sum. Returns made in twenty-four hours.

Two dollars for the gold contained, up to \$1,500, and one-eighth of one per cent for all amounts over that sum, and one per cent on the silver contained. Returns made in twenty-four hours.

For Refining Deposits made for Colu or Fine Bars.

On bullion under 300 parts gold, 2 cents per ounce. On bullion from 300 1/20000 parts gold, 4 cents per

ounce.
On bullion from 600 14 @750 parts gold, 6 cents pe

On bullion from 75012094912 parts gold, 8 cents per

ounce.

Above 950 the only charge will be for coinage. But there will be no charge for refluing less than two dollars.

This charge will be the same as at the mint—a half of one per cent—and which is paid by us to that institution But there will be no charge in future for making fine golor of silver bars from builton refined by us.

Returns in Coin made in Forty-eight Hours.

Sliver contained in deposits for coin will be accounted for at the same race customary at the Mint. Gold bars of other Assayers in good standing, will be make by us at the highest maket rates. Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Farge & Co.'s Express.

Charges at U. S. Branch Mint.

For the convenience of those not familiar with the erms of the Mint, we subjoin the tariff of charges now in orecast that Institution:

For refining bullion under 300 parts gold, 3 cents per ways.

unce. For refining bullion from 3001/4@600 parts gold, 5 cents

For refining bullion from 600 1 @750 parts gold, 7 cents

For refining bullion from 600 ½ 6050 parts gold, 7 cents per ounce.
For refining bullion from 750 ½ 6850 parts gold, 11 cents per ounce.
For refining bullion from 550 ½ 6640 ½ parts gold, 14 cents per ounce.
The charge for coinage is one-half of one per cent, and the charge for making fine silver bars, the same.
Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ½ of one per cent—they must be sold at the following par tacts to equal our return which would have been made had they been posited for coinage;
SöD par to equal Mint return, at refining charge of 14 cents.

845 par to equal Mint return, at refining charge of 11

at 865 par to equal San Francisco A. & R. Works return refining charge of 8 cents. m18. 2p3m

Ayer's Sarsaparilla,

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellowcitizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

complaints:

Scropula and Scropulous Complaints,
Enertions and Enuptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt
Ribun, Scald Head, Syphilis and SyphiLittle Appections, Mencurial Disease,
Dropsy, Keuralgia on The Douloureau,
Debility, Dyspepsia and Indicestion,
Enystrelas, Rose, on St. Anthony's Fire,
and indeed the whole class of complaints grising
from Lapurity of the Blood.

This compound will be found a great pro-

This compound will be found a great pro-noter of health, when taken in the spring, to exmoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spere themselves from the endurance of foul eruptions and ulcerous sores, through which the endurance will rapid to skil test of committee. foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people cujoy better health; and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something

with this publish of the disordered, there can be no nasting health. Sooner of later something must go wrong, and the great machinery of life is disordered or overthrown. Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, preparading to be consequent many preparations. cause many preparations, pretending to be con-

cause many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy with rest upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete cradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY

DR. J. C. AYER & CO.,

DR. J. C. AYER & CO., LOWELL MASS. Price, \$1 per Bottle; Six Bottles for 35.

Aver's Cherry Pectoral

has won for itself such a renown for the cure of overy variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its vitnes, wherever it has been employed. As it has long been in constant us throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.

FOR THE CURE OF Consuments, Jaundice, Dyspensia, Indigestion, Dysentery, Foul Stomach, Ergspines, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neurolgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five Boxes for \$1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our American Almanc in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure. Do not be put off by unprincipaled dealers with other preparations they make more profit on. Demand Ayrairs, and take no others. The sick want the best aid there is for them, and they should have it.

Lyon's Kathairon.

It is a most delightfut Hair Dressing. It makes the hair rich, soft and glossy.

It restores hair upon permaturely bald heads. For all skin diseas, hower inveterate, these medicines are a sovereign remedy. While the Fills act upor the blood, which they put ify, the omiment passes through the pores of the zin, and decause every structure, as water satu ates he not or as satt penetrate meat. The whole physical mentinery is thus rendere healthy, regular and vi orous.

Coughs, Colds and Asthmas.

No medicine will cure coids of long duration or such a reas sattled incombendant so nucleify as these famous. This is just what Lyon's Kathairon will do. It cetty-it is cheap-durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly afformury store that does not keep it, or a family that does not use it. E. THOMAS LYON, Chemist, N. Y.

It prevents hair turning gray and failing off.

Fleas, Ticks, Roaches, and everything of the insect species. It is one of the few articles that can be relied upon, and for a more two bits we can save the bitse and bills of these little pasts. None is genuine unless signed by E. Lyon, and bearing the private stamp of Demas Barnes & Co., New York.
